CAREER OBJECTIVE

Computer Science and Engineering student with a strong interest in software development. A quick learner with good communication and time-management skills, seeking opportunities to apply programming knowledge and develop practical software solutions while continuously improving technical and professional skills.

EDUCATION

R L Jalappa Institute of Technology *2023 – 2027*
Bachelor of Engineering in Computer Science and Engineering
CGPA: 7.5

Sri Vani PU College *2023*
Pre-University Course (PUC)
Percentage: 85%

Sri Devraj Urs International Residential High School *2021*
Secondary School Leaving Certificate (SSLC)
Percentage: 90%

TECHNICAL SKILLS

Programming Languages	C, Java, Python
Web Technologies	HTML, CSS
Database	MySQL
Technologies	Machine Learning, TensorFlow, Keras

PROJECTS

Chilli Leaf Disease Detection
Developed a machine learning-based project for detecting diseases in chilli plant leaves using image-based analysis. The project uses Python and machine learning techniques to identify disease patterns in chilli leaves and assist in early disease detection. TensorFlow and Keras were used for developing and training the machine learning model.

ACHIEVEMENTS

- Participated in a college-level Hackathon.
- Participated in a college-level Quiz Competition.

EXTRA-CURRICULAR ACTIVITIES

- Participated in sports at the Taluk level.
- Participated in college-level technical and quiz activities.

PERSONAL TRAITS

- Strong communication skills.
- Quick learner with a willingness to learn new technologies.

- Good time-management skills.

LANGUAGES

English, Kannada, Telugu
